**ADMINISTRATIVE
COMPLIANCE ORDER**

CWA-02-2011-3019

The following Findings of Violation are made, and Order for Compliance ("Order") issued, pursuant to Sections 308(a) and 309(a)(3) of the Clean Water Act ("CWA" or "Act"), 33 U.S.C. §§ 1318(a) and 1319(a)(3). This authority has been delegated by the Administrator of the United States Environmental Protection Agency ("EPA") to the Regional Administrator, EPA Region 2, and since further redelegated to the Director, Division of Enforcement and Compliance Assistance, Region 2, EPA.

A. Legal Authority

1. Section 301(a) of the CWA, 33 U.S.C. § 1311(a), prohibits the discharge of pollutants from a point source into waters of the United States, except in compliance with, *inter alia*, Section 402 of the CWA, 33 U.S.C. § 1342.
2. Section 402(a)(1) of the CWA, 33 U.S.C. § 1342(a)(1), provides that pollutants may be discharged only in accordance with the terms of a National Pollutant Discharge Elimination System ("NPDES") permit issued pursuant to that Section.
3. Section 402 of the CWA, 33 U.S.C. § 1342, authorizes the Administrator of the EPA to issue a National Pollutant Discharge Elimination System ("NPDES") permit for the discharge of any pollutant, or combination of pollutants subject to certain requirements of the Act and conditions which the Administrator determines are necessary. Additionally, under the authority delegated to the New York State Department of Environmental Conservation ("NYSDEC") by the EPA under Section 402(b) of the Act, 33 U.S.C. § 1342(b), a State Pollutant Discharge Elimination System ("SPDES") permit is required to be issued to facilities in New York State by the NYSDEC for the discharge of pollutants from said facilities from a point source to a navigable water of the United States.

4. "Person" is defined by Section 502(5) of the CWA, 33 U.S.C. § 1362(5) to include an individual, corporation, partnership, association or municipality.
5. "Pollutant" is defined by Section 502(6) of the CWA, 33 U.S.C. § 1362(6) to include among other things, solid waste, dredged spoil, rock, sand, cellar dirt, sewage, sewage sludge and industrial, municipal and agricultural waste discharged into water.
6. "Point source" is defined by Section 502(14) of the CWA, 33 U.S.C. § 1362(14) to include any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft, from which pollutants are or may be discharged.
7. "Navigable waters" is defined by Section 502(7) of the CWA, 33 U.S.C. § 1362(7) to include the waters of the United States.
8. "Discharge of a pollutant" is defined by Section 502(12) of the CWA, 33 U.S.C. § 1362(12) to include any addition of any pollutant to navigable waters from any point source.
9. Section 402(p) of the CWA, 33 U.S.C. § 1342(p) sets forth the requirements for the discharge of stormwater, including discharges of stormwater from Municipal Separate Storm Sewer Systems ("MS4s").
10. 40 C.F.R. § 122.26(b)(8), defines an MS4 as a "conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains): (i) owned or operated by a city, town, borough, county, parish, district, association, or other public body (created by State law).....that discharges into waters of the United States; (ii) designed or used for collecting or conveying stormwater; (iii) which is not a combined sewer; and (iv) which is not part of a Publicly Owned Treatment Works..."
11. 40 C.F.R. § 122.26(b)(3) defines "incorporated place," in part, as a city, town, township, or village that is incorporated under the laws of the State in which it is located.
12. 40 C.F.R. § 122.26(b)(16)(ii) defines "small municipal separate storm sewer system," in part, as not defined as "large" or "medium" municipal separate storm sewer systems.
13. Pursuant to 40 C.F.R. § 122.32(a)(1), all small MS4s located in an "urbanized area" (as determined by the latest Decennial Census by the Bureau of Census) are regulated small MS4s.
14. 40 C.F.R. §§ 122.33(a) and (b) require operators of regulated small MS4s to seek authorization to discharge under the applicable NPDES general permit issued by the permitting authority, by submitting a Notice of Intent ("NOI") for coverage under such permit.

15. NYSDEC issued SPDES General Permit for Storm Water Discharges from MS4s (GP-0-08-002) ("Permit") on April 15, 2008. The permit became effective on May 1, 2008 and expires on April 30, 2010. The permit supersedes the previous SPDES permit (GP-02-02), which was effective on January 8, 2003 and expired on January 8, 2008. The previous permit was administratively extended until April 15, 2008, when SPDES GP-0-08-002 was issued. NYSDEC issued SPDES General Permit for Storm Water Discharges from MS4s (GP-0-10-002) and became effective on May 1, 2010 and expires on April 30, 2015. The permit supersedes the previous SPDES permit (GP-0-08-002).
